VI. Items for Plan Commission Action

- a. 2019-012 FP Consideration of a Final Plat in the Ogden Hill Commercial Subdivision – Inland National Development Company, LLC.

Senior Planner Chipman introduced the item and explained the location of the parcel and the proposed use of a medical building. Staff recommended approval pending engineering and the revised site plan that will allow for cross access.

Engineer Tim Paulson stated the storm and sanitary connections are already existing and met. There were no issues except a couple of certificates that he had attached to the report.

Senior Planner Chipman stated that a medical use was an approved use for the zoning and invited the petitioner forward to speak.

The petitioner stated they were working to bring a medical office to site and were in full support of the use. He stated that they were willing to work with staff on the cross access concerns that were raised.

Senior Planner Chipman stated that staff would be amenable to discussing several site design options for the site, as it is large enough to allow flexibility.

Chairman Hammond clarified the locations of the cross access on each site plan, and if it would be at a dead end. Chipman stated that it would be at a dead end.

Commissioner Kelsey suggested working with the Fire Department, to ensure those needs are met since a medical building might see added traffic from ambulances etc. Chipman stated that staff had reached out to the Fire District. Kelsey stated he felt the plan was very solvable.

Motion: Motion was made by Commissioner Kelsey to approve 2019-012 FP Consideration of a Final Plat in the Ogden Hill Commercial Subdivision – Inland National Development Company, LLC to include corrections made by EEI and allowing for cross access.
