

RESOLUTION NO. 2020-003

A RESOLUTION ADOPTING A COMPLETE STREETS POLICY VILLAGE OF MONTGOMERY

WHEREAS, the Village of Montgomery has a history of creating long-range planning documents that have been used successfully to help guide growth and redevelopment; and,

WHEREAS, in December 2007, the Village Board adopted "The Greenest Region Compact," a community-wide Sustainability Plan, which called for improvement of the bicycle and pedestrian environment, among other recommendations; and,

WHEREAS, the Village of Montgomery has also adopted a gap analysis and prioritization strategy ("GAP Plan") to establish greater connectivity throughout the Village of Montgomery; and,

WHEREAS, Complete Streets are designed to improve mobility, access, and connectivity for persons traveling by all modes, encourage healthy lifestyles, increase safety for all users, enhance neighborhoods, businesses, and institutions, and advance the quality of life for all Village of Montgomery citizens and visitors; and

WHEREAS, developing Complete Streets is a priority on all corridors and routes. Transportation and development projects shall be treated as an opportunity to offer improvements in access and connectivity by all modes of travel to Village of Montgomery services, businesses, neighborhoods, schools, parks, trails, and adjacent communities; and

WHEREAS, the Village of Montgomery is a key connection point for the Virgil Gilman and Fox River Trails, which are regional multi-use trails that encourage local development, promote a healthy lifestyle and bring many visitors to the community on foot and by bicycle; and

WHEREAS, streets are a key public space, shape the experience of residents of and visitors to the Village of Montgomery, directly affect public health and welfare, and provide the framework for current and future development.

NOW, THEREFORE, BE IT RESOLVED by the Village President and Village Board of Trustees of the Village of Montgomery, Kane and Kendall Counties, Illinois as follows:

SECTION 1: ADOPTION OF A COMPLETE STREETS POLICY

VISION

This Complete Streets Policy shall direct the Village of Montgomery to develop and provide a safe and accessible, well-connected and visually attractive surface transportation network, that balances the needs of all users, including: motorists, pedestrians, bicyclists, public transportation riders and drivers, emergency vehicles, freight carriers, agricultural vehicles and land uses and promote a more livable community for people of all ages and abilities, including children, youth, families, older adults and individuals with disabilities.

PURPOSE

This policy is intended to ensure that all planning, scoping, programming, design, right-of-way acquisition, construction, construction engineering, reconstruction, operation and maintenance activities produce safe and accessible surface transportation network improvements that allow all users of the public right of way to safely and conveniently reach their destination regardless of their chosen mode of transportation. This policy is also intended to encourage walking and biking, producing the health benefits that result from these types of activities, help reduce the demand for fossil fuels, ease traffic congestion, reduce wear on roadways, improve air quality and make streets and public and private spaces more attractive for businesses and customers and increase economic activity.

DEFINITIONS

For the purpose of this section, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

Complete Street – a street that is designed and operated to enable safe access for all Users, so that pedestrians, bicyclists, motorists and public transportation users of all ages and abilities are able to safely and conveniently move upon, along and across a street.

Complete Street Infrastructure – design features that contribute to a safe, convenient, or comfortable travel experience for Users, including but not limited to features such as: sidewalks; shared use paths; bicycle lanes; automobile lanes; paved shoulders; street trees and landscaping; planting strips; curbs; accessible curb ramps; crosswalks; refuge islands; pedestrian and traffic signals, including countdown and accessible signals; signage; street furniture; bicycle parking facilities; public transportation stops and facilities; transit priority signal; traffic calming devices such as rotary circles, traffic bumps, and surface treatments such as paving blocks, textured asphalt and concrete; narrow vehicle lanes; raised medians; and dedicated transit lanes.

Street – any right-of-way, public or private, including arterials, connectors, alleys, ways, lanes and roadways by any other designation, as well as bridges, tunnels and any other portions of the transportation network.

Project – the construction, reconstruction, retrofit, maintenance, alteration, repair of any Street or Public Way, and includes the planning, design, approval, and implementation processes. Project does not include minor routine upkeep such as cleaning, sweeping, mowing, spot repair, or interim measures on detour routes.

Users – individuals that use Streets, including motorists, pedestrians, bicyclists, public transportation riders and drivers, emergency vehicles, freight carriers, agricultural vehicles and people of all ages and abilities, including children, youth, families, older adults and individuals with disabilities.

Public Way – any transportation improvement accessible by the public; including but not limited to parks and public lands.

PLANNING

The Village will incorporate Complete Streets principles into the Village's Comprehensive Plan, area plans, transportation plans, Village Code of Ordinances, standards and specifications, documents and other plans, manuals, rules, regulations and programs as appropriate.

PROJECTS AND PHASES

The Village of Montgomery shall approach every transportation and transportation-related improvement and project phase as an opportunity to create safer, more accessible streets for all users. These phases include, but are not limited: planning, scoping, programming, design, right-of-way acquisition, construction, construction engineering, reconstruction, operation and maintenance.

Other changes to transportation facilities on streets and rights-of-way, including capital improvements and major maintenance (resurfacing & reconstruction) must also be included. Complete Streets principles will be applied on all Village projects, privately funded development and incrementally on existing streets through a series of small improvements and activities over time.

Maximum financial flexibility is important to implement Complete Streets principles. Available sources of transportation funding, public and private, should be drawn upon to implement Complete Streets within the Village of Montgomery.

It is understood that maintenance activities do not necessarily trigger requirements for major street improvements and should not be expected to do so. However, maintenance activities do present some opportunities that can improve the environment for other roadway users.

EXCEPTIONS

Exceptions to this policy shall be approved by Village Staff and documented to indicate the basis for the decision. Such documentation shall be publicly available upon request. Additional review by the Planning Commission and/or Village Board of Trustees will be utilized on a case-by-case basis, when deemed necessary. Circumstances for exceptions may include:

- An affected roadway prohibits by law the use by pedestrians and bicyclists (such as state & federal limited-access highways) in which case a greater effort shall be made to accommodate those specified users elsewhere, including on roadways that cross or otherwise intersect with the affected roadway.
- The costs of providing accommodation for some travel modes are excessively disproportionate to the need or probable use by those modes.
- Where the construction is not practically feasible or cost effective because of unreasonable adverse impacts on the environment or on neighboring land uses including impact from right-of-way acquisition.
- Where routine maintenance of the transportation network does not change the roadway geometry or operations.
- There is a reasonable and equivalent project along the same corridor, effectively serving the same destinations and providing the same access and mobility, which is already programmed to provide facilities, therefore exempting the project at hand.

DESIGN

The Village of Montgomery shall follow accepted or adopted design standards and use the best and latest design standards available, including but not limited to, existing design guidance from: Illinois Department of Transportation, American Association of State Highway and Transportation Officials, Federal Highway Administration, the Institute of Transportation Engineers, National Association of City Transportation Officials, the Americans with Disabilities Act, the Public Right-of-Way Accessibility Guidelines, and the Active Transportation Alliance.

In recognition of various contexts and public input, a flexible, innovative and balanced approach that follows other appropriate design standards may be considered, provided that a comparable level of safety for all users is present.

CONTEXT SENSITIVITY

The Village of Montgomery shall implement Complete Streets solutions in a manner that is sensitive to the local context and character, aligns transportation and land use goals and recognizes that the needs of users may vary by case, community or corridor.

PERFORMANCE MEASURES

The Village of Montgomery shall measure the success of this Complete Streets policy using, but not limited to, the following criteria:

- Linear feet of pedestrian accommodations built

- Number of ADA accommodations built
- Miles of bike lanes/trails built or striped
- Number of transit accessibility accommodations built
- Number of street trees planted
- Crosswalk and multimodal intersection improvements
- The Village shall annually update its GAP Plan and make said plan available to the public.

IMPLEMENTATION

The Village views Complete Streets as integral to everyday transportation decision-making practices and processes. To this end:

- The Village will implement this policy as part of its GAP Plan and update said plan on an annual basis.
- The Department of Community Development, the Department of Public Works, and other relevant departments, agencies or committees shall incorporate Complete Streets principles into all appropriate plans, manuals, checklists, decision trees, rules, regulations and programs as appropriate.
- Review all new roadway projects, public and private developments and other Complete Streets-related improvements, early in the planning process, to ensure consistency with this policy and the Bicycle and Pedestrian Plan.
- Ensure that the Five-Year Capital Plan incorporates implementation of the Complete Streets Policy and the Bicycle and Pedestrian Plan with any proposed roadway and parks projects.
- Village Staff shall identify current and potential future sources of funding for street improvements and recommend improvements to the project selection criteria to support Complete Streets projects.
- When available, the Village shall encourage Staff professional development and training on non-motorized transportation issues through attending conferences, classes, seminars and workshops.
- Review any requests for exceptions to the Complete Streets Policy and related documentation.
- Carry out and monitor the implementation and impact of this policy based on the goals set out within this section.

PASSED AND APPROVED by the President and Board of Trustees of the Village of Montgomery, Kane and Kendall Counties, Illinois, this 27th day of January, 2020.

Matthew Brolley,
President of the Board of Trustees of the Village
of Montgomery, Kane and Kendall Counties,
Illinois
